

OMRON Products

OMRON is the most fascinating range of electronic components. There is no substitute if you wish to incorporate reliability in your equipments whether it is sensors, micro switches, tact switches, relays designed for extremely high DC current, the name looked at is OMRON.

ITP will be offering full range of OMRON components and they welcome you to involve them in you R & D initiative from day one.

ITP will keep all the R&D engineers on their mainly list and keep them informed of new developments from time to time.

To get full technical information on OMRON products please fill up the form on http://itpindia.com/content_BusinessEnquiry.htm . This initiative is fully supported by OMRON management and engineers.

B3U APPLICATION

Facts at a glance

- Smallest switch: 1.2 x 3 x 2.5 mm (H x W x D)
- Surface mounted: Ideal for high density mounting
- Dust Proof construction increase reliability.
- ROHS compliant.

OMRON Products

D2F APPLICATIONS

Facts at a glance

- Dimension: 12.8 x 6.5 x 5.8 mm
- Current Rating: 3A @ 125VAC & 0.1A @ 30VDC
- Life expectancy: 1 Million operations

Elevator

- Operation switch
- Call button
- Level Selection

Access control system

- Detecting open close
- Detecting Lock/Unlock
- Motion Limit Detector

Electricity Meter

- Anti tamper Detection

Electric Pot

- Power On/ Off

Fire Alarm

- Unit removal
- Detection

Linear Drive

- Detecting the
- Limits

Electronic Door Lock

- Door open / close detection
- Lock / Unlock Detection
- Motor Limit Detector

OMRON Products

D3V APPLICATIONS

Facts at a glance

- Dimension: 27.8 x 15.9 x 10.3 mm
- Current Rating: Upto 21A@250VAC
- Life expectancy: 500,000 Operations

Photocopier

- Tray open/ close detection

Roller Shutter

- Detecting open close
- Detecting Lock/Unlock
- Motion Limit Detector
- Detecting roller shutter Limits

HVAC

- Detecting Air Pressure

Washing Machine

- Turning Power On/ Off
- Detecting water leakage
- Detecting door Open/ Close

Gas Range

- Open/ Close detection of Door

Automatic Gates

- Anti Accident switch
- Detection end position

Microwave Oven

- Shutting off power when door open
- Signal for door open
- Safety switch in case of short circuit.

OMRON Products

SS APPLICATIONS

Facts at a glance

- Dimension : 19.8 x 6.4 x 11.2 mm
- Current Rating: 10A @ 125VAC
- Life expectancy : 30 Million Opns
